

After the traditional Nazi parade in Vilnius on March 11 came the ritual pro-Waffen SS demonstration in Riga on 16 March with the participation of members of the Latvian Parliament

Complement to my note of May 9, 2011

Who are the supporters of the trivial equivalence between Nazism and Communism (initiated by the Prague Process)?

**Those who want the obfuscation of the Holocaust
94% of the Latvian Jewish population was exterminated**

Those who continue to support the former collaboration

This trivial equation between red and brown has yet to be regarded with respect by the European Commission.

On 16 March the memory of Latvian Waffen SS has been honored by almost 3,000 people including members of the Latvian Parliament. Wreaths were laid in their honor at the Monument to freedom under the protection of the Latvian police official.

This event is recurring and authorized as the "Day of the Legionaries".

We invite you to support the statement which will be soon proposed to protect the Ethics of the European Union against the current offensive in Brussels and led by Baltic countries and other Eastern countries members of the European Union..
